

# DN Series™ EASY

Built for the Storevolution.™  
Built for More.

[DieboldNixdorf.com](http://DieboldNixdorf.com)

**Retail is changing faster than many retailers can anticipate.** Staying ahead of ever-changing consumer demands is a key challenge. DN Series™ EASY meets these evolving challenges head-on. Our retail self-service solutions are highly modular, more open than ever before and offer you the ultimate uptime and reliability.

# A Complete Portfolio, Built on a Single Platform

## DN Series EASY Pro

All-in-one yet fully flexible, DN Series EASY Pro features customizable configurations, best-in-class components and an optimized footprint. Make it yours with a range of options for cash modules, screen sizes and peripherals, and enjoy on-site scalability with seamless adaptability.

## DN Series EASY ONE

Designed for retail environments where maximum flexibility is required, the DN Series EASY ONE can be configured for assisted, semi-assisted or full self-service checkout while offering tremendous options for peripherals and mounting.

## DN Series EASY eXpress

Designed with small-store formats in mind, DN Series EASY eXpress is a future-focused self-service terminal. It comes with the options to be wall-mounted, furniture agnostic tabletop, pedestal mounted or in conjunction with a cash-rack for ultimate flexibility.

## DN Series EASY eXpress Max

With its 27" or 32" interactive touchscreen, DN Series EASY eXpress Max is designed to entice. Open up new opportunities to attract and connect with your customers, in an optimized footprint. Offer exclusively digital payment methods, or add a cash rack underneath.

Meet Consumers' Changing Desires.  
With DN Series EASY, you can do MORE.

# More Modular

## Leverage a right-sizing approach to store transformation.

The highest modularity is needed to tailor the technology that will best suit your store's needs. The DN Series EASY family is built on a core technology platform with the ability to add different modules to solve different use cases. The range consists of four head units designed for different applications, and three base units that can be added for different payment strategies. Further options, such as a security scale, shelves and furniture, are available to easily adapt to your store's requirements and ensure every deployment is optimized for a store's unique environment.

## Experience industry-leading flexibility.

A highly modular self-service platform that enables you to easily develop and deploy different combinations of solutions across your store network.

A right-sizing approach, versus "one size fits all" to meet consumers' changing desires, while ensuring the flexibility you need to adapt for the future.

On-site scalability and upgradability to accommodate any retail environment.

UX/UI personalization to augment consumer experience throughout shopping journeys.

# More Open

## Any retail environment, anytime, anywhere.

Openness is essential for a successful self-service strategy. An open, modular software platform ensures tailored solutions within store environments and speeds up time to market—for every consumer journey. With DN Vynamic® Self-Service, we offer the most open self-service software in the market. Our modular, flexible architecture meets a wide variety of current and future self-service scenarios, and fulfills market requirements for Open Retailing via open APIs.

## Software that meets your complex retailing requirements.

### Augment self-service experiences with Vynamic Self-Service Touchpoint:

Vynamic Self-Service Touchpoint easily integrates your existing POS applications with the right self-service terminal for each store, making existing POS business logic available on all touchpoints.

### Enhance staff experience with Vynamic Smart Assist:

Vynamic Smart Assist offers real-time status updates on your touchpoints and transactions, anytime, anywhere, in-store, on any device to better manage customer interventions.

### Drive more efficient store operations with Vynamic Self-Service Store and Enterprise Manager:

Vynamic Self-Service Store and Enterprise Manager makes staff operations more efficient with a simple and accessible web browser application.

### Open new horizons with Vynamic Self-Service AI Platform:

Vynamic Self-Service rapidly integrates new innovations like age verification, fresh produce recognition, scan error identification and shrink reduction.

# More Available

## Offer higher availability, provide a better consumer experience.

Powered by DN AllConnect Services<sup>SM</sup> for Retail, our service teams support your most critical retail processes. Our comprehensive Managed Self-Service solutions ensure your self-service estate is always on, at the lowest TCO.

- Drive customer satisfaction—Up to 99.8% device availability
- Improve staff efficiency—5 hours gain per store/week in staff efficiency
- Manage your costs of operations—80% reduction in helpdesk calls

Enable your staff to focus on your customers—with Managed Self-Service we streamline your staff and consumer journeys.

## Global coverage, local support. DN AllConnect Services for Retail...

Drives customer satisfaction by increasing the availability across your stores' touchpoints.

Improves staff efficiency through proactive remote resolution capabilities that remove tasks from store staff.

Substantially reduces T&M expenses for unnecessary field interventions.

Reflects local needs with a set of standard maintenance SLAs regarding resolution times (4-/6-/8-hrs/NBD) and onsite service coverage hours.

Reduces your cost of operations.

# We Ensure the Best Checkout Mix Supported by Storevolution™ Advisory Services

The DN Series EASY platform approach was born out of Diebold Nixdorf's Storevolution consultative philosophy, which ensures the right combination of hardware and software solutions, operationalized in the right way. Our Storevolution Advisory Services experts work with your organization to strategically optimize your checkout mix. Our approach enables you to pick and choose the right combinations of self-service checkout types for each one of your stores, to suit your individual customers' needs. This provides a very efficient checkout experience.

**Storevolution Advisory Services provides proprietary data analytics designed to help you define the best checkout mix, using a proven methodology based on four points:**

**Optimize space  
in stores**

**Improve customer  
service**

**Increase sales**

**Reduce store costs**

## Why Diebold Nixdorf?

With an installed base of more than 1.3 million EPOS systems worldwide<sup>1</sup> and tens of thousands of self-service systems already deployed by more than 150 retailers in more than 50 countries, Diebold Nixdorf automates, digitizes and transforms the way people shop. Our integrated solutions connect digital and physical channels conveniently, securely and efficiently for millions of consumers every day. As an innovation partner for the majority of the top 25 global retailers, Diebold Nixdorf delivers unparalleled services and technology that power the daily operations and consumer experience of retailers around the world. Our local presence in more than 100 countries positions us to better understand the market needs of today and anticipate those of tomorrow. We leverage our Storevolution expertise in designing, enabling and operating relevant consumer and staff journeys to help retailers achieve their business objectives and achieve consistency across all channels—from store to mobile and beyond.
