# Stay Ahead of Evolving Threats with Managed Security Services.

Today's security measures must reach farther and wider than ever before, as new digital channels join traditional physical channels in providing transactions, currency and sensitive consumer data. New attack vectors are emerging every day—but the old threats still remain. In this complex, fast-paced environment, it's critical that your security partner understands the landscape and is prepared for threats before they attack.

Managed Security Services offer world-leading solutions driven by our global experience in physical and logical security. Our comprehensive, integrated approach to securing our clients' data, channels and endpoints ensures the best possible protection every time, everywhere. By shifting the burden of implementing and managing the fleet to a trusted partner, our Managed Security Services provide reliable, scalable and globally standardized managed processes paired with local expertise.

OPTIMIZE SECURITY

- 24/7 monitoring
- Eliminate threats proactively
- Be in control of emerging risks

INCREASE EFFICIENCY

- Free your staff of the day-to-day management burden
- Streamline processes
- Managed services model provides maximum flexibility

MANAGE OPERATIONAL RISK

- Real time threat insights
- Remote troubleshooting
- Focus on core business initiatives

Does your Managed Services provider offer the comprehensive, end-to-end security support your organization needs? As the threats become more global and move more quickly, your network has to be protected by the most up-to-date security measures available.

Managed Security Services offer valuable multilayered protection and real-time information that ensures we have the visibility to keep your network secure, protected and available, while providing the information to assist with your ATM security audits.

We employ a risk-based approach that's tailored to your unique environment, supported by our security services.

Managed Security Services

Security Core Services

Security Enhanced Services

SECURITY CORE SERVICES
Security Core Services empower you to focus on your core business instead of worrying about security. Your organization benefits from:
